Mike Watson was a very successful trial attorney in the field of medical malpractice and later became a law professor with several respected law books to his credit. Feeling a certain DISSATISFACTION and BEING UNFULFILLED, Mike walked away from law and began a discovery quest to QUENCH the unrest in his soul. Traveling to New Orleans after Hurricane Katrina in 2007, Mike found his calling. Realizing his greatest asset was his life and his time, Mike began looking for opportunities to positively impact others within his immediate circle and his community. Mike made the compelling choice to become an Episcopal priest and his story of enlightenment, benevolence and change is impacting and motivating audiences around the country. Mike's book, ***Renewal and Hope; Renew Your Own Joy by Creating Hope for Others***, will soon be available on [Amazon.com](https://www.amazon.com)

Father Mike, as he is known by those in his congregation, is available to corporate, small businesses, professional business men and women groups, high schools, private schools and community groups.
